

ЕГЭ English Вариант 9

Аудиотекст А1-7

Daniella: I think we should definitely take a mobile phone. If we have an accident or get lost we can always call and tell someone we are in trouble.

Loukas: Yes, I agree. They are quite light anyway and they are really essential in that kind of situation. I think the camera will be a bit too heavy, don't you?

Daniella: It depends. A lot of the new digital cameras are tiny. Perhaps we could take one of those mobile phones that is also a camera?

Loukas: That's a good idea. It would be a pity to go on a trip like that and not be able to take any photos. But I am a bit worried about the weight. We don't want to carry too much. And if we don't carry a torch...

Daniella: Are we going to take the torch?

Loukas: I wouldn't go on a camping trip without a torch. It can be very dark in the mountains at night. And we could also use it to attract attention if we get lost.

Daniella: Well, I am sure you don't think that taking a laptop computer is a good idea then.

Loukas: Why should we take a laptop computer with us?

Daniella: Well, it's a long camping trip so we might want to write letters or keep a diary or something. The trouble is we wouldn't be able to reach out the Bartley Hotel up there in the mountains. Some binoculars would be good though. We could use them to watch birds and animals.

Loukas: In my opinion they are not necessary and they are too heavy to carry.

Daniella: OK, we'll leave the binoculars behind but I want to bring my personal CD player. It hardly weighs anything at all and I love music.

Loukas: I think we should leave room for more important things like sun screen. But if you really want to take it then it's up to you.

Daniella: So we want to take the mobile phone, the torch, the sun screen. And what about the chocolate?

Loukas: I love chocolate so we definitely have to take that.
